

Light Aircraft Association

LAA AGM 2019

Welcomes

Wg Cdr Chris Pote

Eurofox to New Zealand

Chris has an exciting RAF flying career training pilots for low-level combat operations in aircraft including the Hawk, Tucano and Tornado, but Chris has always drawn inspiration from the pioneering expeditions flown by aviators of the 1920s and 1930s.

In 2018 Chris and a small team of fellow adventurers celebrated 100 years of the RAF by flying a Eurofox kit aircraft from the UK to New Zealand. On the way they notched up 20,500 miles, 18 countries, three near ground loops and 100mph on 100hp, as well as 34 STEM presentations to students from Karachi to Christmas Island. We are delighted to welcome Chris as a guest speaker at this year's LAA AGM.
